# Apply safety, health and environmental protection procedures

---

Unit Standard Number: 13223

NQF Level: 03

Credits: 6

## PURPOSE OF THE UNIT STANDARD:

Qualifying learners can apply relevant safety, health and environmental protection procedures in their place of work to maintain a safe and productive work area. They are able to explain safety, health and environmental objectives, standards and regulations at the workplace, perform safety inspections, and identify and report on unsafe conditions.

## SPECIFIC OUTCOMES AND ASSESSMENT CRITERIA:

### SPECIFIC OUTCOME 1

Explain and discuss statutory rights, responsibilities and liability regarding safety:

- An understanding of statutory rights, responsibilities and liability and safety, health and environmental objectives, standards and regulations is demonstrated.
- Safety and environmental inspections in work area are conducted.
- Unsafe conditions are identified and appropriate corrective action taken.
- Reports on safety, health and environmental conditions in work area are available.

### SPECIFIC OUTCOME 2

Explain and discuss safety, health and environmental objectives, standards and regulations.

### SPECIFIC OUTCOME 3

Perform safety and environmental inspections in work area.

### SPECIFIC OUTCOME 4

Identify unsafe conditions and take corrective action.

### SPECIFIC OUTCOME 5

Report on safety conditions in work area.
